

# Launch your career with G&W INTERNSHIPS

Discover what makes G&W stand out

At G&W Engineering, interns don't just observe - they contribute. You'll gain hands-on experience, mentorship, and exposure to real projects that shape communities, all while building the foundation for your future career.

## 6 things to know about G&W Internships

### REAL-WORLD EXPERIENCE

Work on active projects in MEPFP, Civil, Structural, Commissioning, and more – across industries like education, commercial, and government.

### CLIENT & INDUSTRY EXPOSURE

See how engineers collaborate with architects, contractors, and owners - and sit in on meetings to understand the full project cycle.

### GUIDANCE & MENTORSHIP

Learn directly from senior engineers who invest in your growth and provide feedback to sharpen both technical and professional skills.

### TEAM CULTURE & COMMUNITY

Join a collaborative, supportive environment where interns are part of the team, not just observers. Enjoy socials, volunteer and culture-centered activities.

### INDUSTRY SOFTWARE SKILLS

Build proficiency in tools like Revit, Bluebeam, and AutoCAD – gaining in-demand skills that set you apart in the job market.

### CAREER PATHWAYS

Some interns transition into full-time roles after graduation – making your internship a launchpad for your future.

“At G&W, your contributions matter – interns make a real impact on projects and clients.”

# Your Single Source Engineering Partner

## What We Do:

G&W Engineering designs the systems that power, connect, and support buildings – from healthcare and schools to commercial spaces and government facilities – through our expertise in MEPFP, Civil, Structural Commissioning, Enclosure and Testing services.

## Our Why?

We believe great engineering starts with great people, which is why our culture is built on teamwork, learning, and collaboration. Together we create solutions that make a real difference in our communities.

## What Past Interns Say

“Through my internship at G&W, I learned skills that aren’t taught in a classroom and was surrounded by great people.”  
-**Gabriel**  
**Washington University**

“My internship at G&W went above and beyond my expectations. This team’s culture and work ethic inspired me every day to push to greater heights.”  
-**Tabitha**  
**University of Missouri**

“The supportive team and hands-on projects have not only challenged me but have also inspired a passion for innovation and collaboration in the MEP field.”  
-**Julio**  
**University of Missouri**

“At G&W, I was surrounded by very knowledgeable people who were invested in my development and helping me succeed.”  
-**Shaun**  
**Misouri S&T**
